

AGS 4023

WHEAT

2022 OFFICIAL UNIVERSITY TRIAL RESULTS

- #4 3-Year Average North GA @ 104 BPA
- Blackville, SC @ 92 BPA
- Winnsboro, LA Late Fungicide @ 89.5 BPA
- #15 Tallassee, AL @ 83 BPA

AGRONOMIC CHARACTERISTICS

Test Weight	Very Good
Relative Maturity	Medium
Straw Strength	Good
Vernalization Requirement	Moderate
Awned	Yes
Plant Height	Medium

DISEASE & PEST RESISTANCE

Leaf Rust	Good
Stripe Rust	Good
Glume Blotch	Good
Powdery Mildew	Good
Barley Yellow Dwarf (BYD)	Good
Soil Borne Wheat Mosaic (SBWM)	Good
Hessian Fly	Good
Fusarium Head Blight (Scab)	Good to V. Good

Data Taken from Official University Trials on Released Varieties Only

MANAGEMENT CONSIDERATIONS

- New Variety
- Medium Maturity
- Moderate Vernalization Requirement
- Awned
- Best Natural FHB Tolerance
- Top End Yield Potential - Similar to 2024
- Good Choice for Growers Passively Planting Wheat in Lower Intensity Management
