WHEAT

2022 OFFICIAL UNIVERSITY TRIAL RESULTS

- #9 Rome, GA @ 122 BPA
- #2 LSD Fairhope, AL @ 81 BPA
- Florence, SC @ 101.6 BPA

AGRONOMIC CHARACTERISTICS

Test Weight	Very Good
Relative Maturity	Medium/Late
Straw Strength	Good
Vernalization Requirement	Moderate
Awned	Yes
Plant Height	Medium

DISEASE & PEST RESISTANCE

Leaf Rust	Good
Stripe Rust	Fair
Glume Blotch	Good
Powdery Mildew	Good
Barley Yellow Dwarf (BYD)	Good
Soil Borne Wheat Mosaic (SBWM)	Good
Hessian Fly	Good
Fusarium Head Blight (Scab)	Good to V. Good

Data Taken from Official University Trials on Released Varieties Only

MANAGEMENT CONSIDERATIONS

- New Variety
- Medium/Late Maturity
- Moderate Vernalization Requirement
- Awned
- Best Natural FHB Tolerance
- Top End Yield Potential
- Good Choice for Growers Passively Planting Wheat in Lower Intensity Management, as well as, Intensive Management Scenarios
