

AGS 4043

WHEAT

2023 OFFICIAL UNIVERSITY TRIAL RESULTS

- #7 Florence, SC @ 124.5 Bu/Acre
- #3 Lenoir, NC @ 100.3 Bu/Acre
- #1 South GA Avg @ 79.6 Bu/Acre

MANAGEMENT CONSIDERATIONS

- Medium/Late Maturity
- Moderate Vernalization Requirement
- Top choice for FHB Tolerance
- Top End Yield potential
- Good choice for growers passively planting wheat in lower intensity management AND intensive management scenarios

AGRONOMIC CHARACTERISTICS

Test Weight	Very Good
Relative Maturity	Medium/Late
Straw Strength	Good
Vernalization Requirement	Moderate
Awned	Yes
Plant Height	Medium

Data taken from Official University Trials on Released Varieties

DISEASE & PEST RESISTANCE

Leaf Rust

Stripe Rust

Glume Blotch

Powdery Mildew

Barley Yellow Dwarf (BYD)

Soil Borne Wheat Mosaic (SBWM)

Hessian Fly

Fusarium Head Blight (SCAB)

Fair Good V. Good
